STUDENT AMBASSADOR

Introduction to MLSA and other student programs

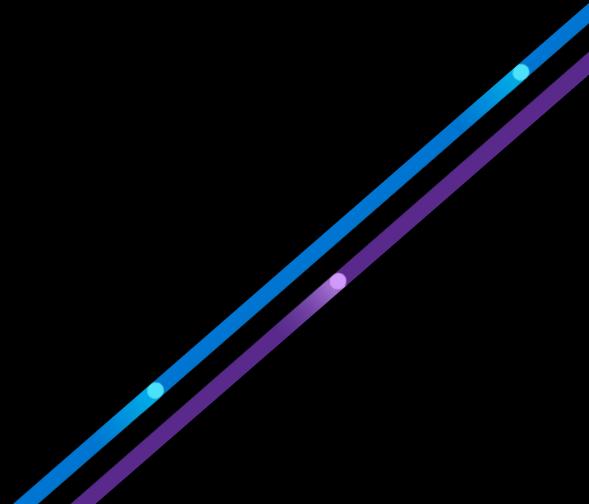

Student Programs

- Microsoft Learn Student Ambassador
 - HackClub
 - Google Developer Student Clubs
 - GitHub Campus Expert
 - Major League Hacking
 - Angel Hack
 - DE Shaw Ascend Fellowship
 - #IamRemarkable
 - OnePlus Student Ambassador Program
 - AWS Education
 - Facebook Developer Circles
 - Postman Student Expert
 - Intel Student Ambassador Program
 - AICRA Campus Program
 - OAuth Ambassador
 - Google Facilitators
 - GFG Campus Ambassador
- 

Pre-requisite of this event and programs

- 1. Stay Hungry Stay Foolish!**
- 2. Be a good listener and analyse.**
- 3. Learning to share, sharing to learn.**
- 4. Build diverse and inclusive community.**

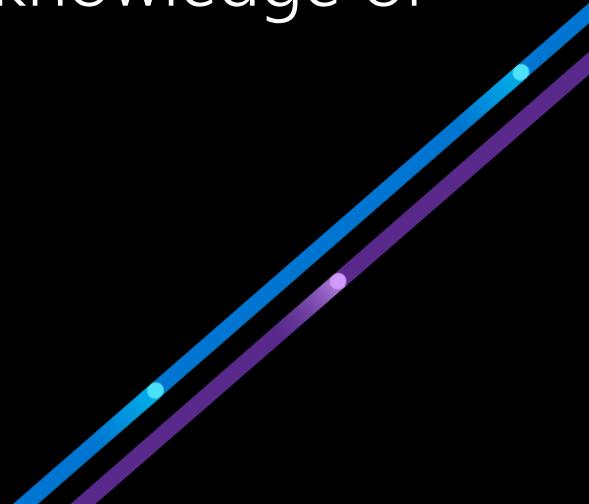

Microsoft Learn Student Ambassador

The Microsoft Learn Student Ambassadors (formerly called Microsoft Student Partners) is a program to sponsor students majoring in disciplines related to technology.

The MLSA program enhances students' employability by offering training in skills not usually taught in academia, including knowledge of Microsoft technologies.

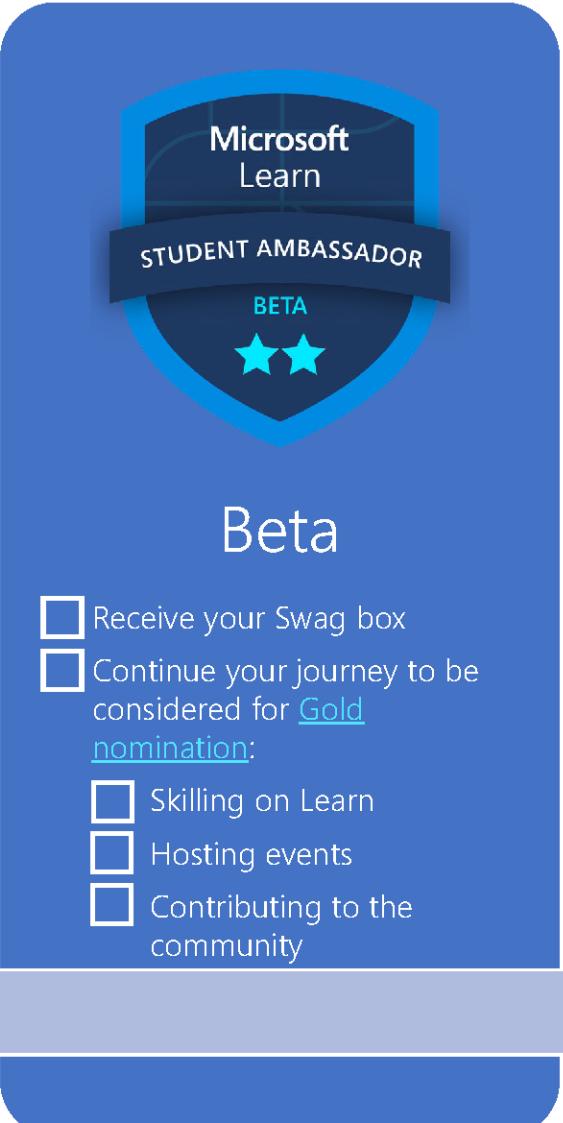

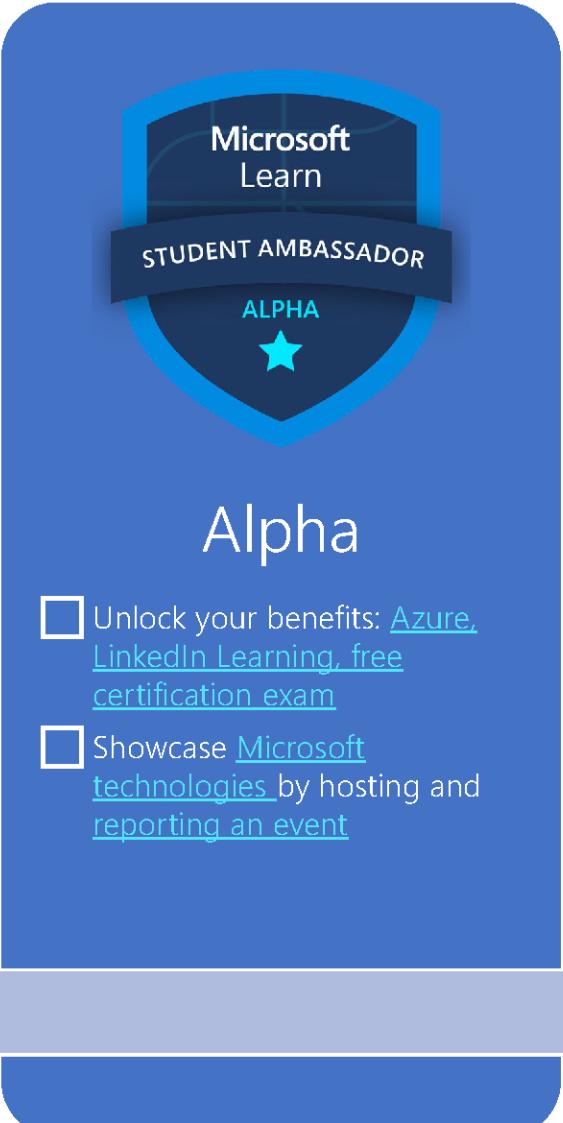

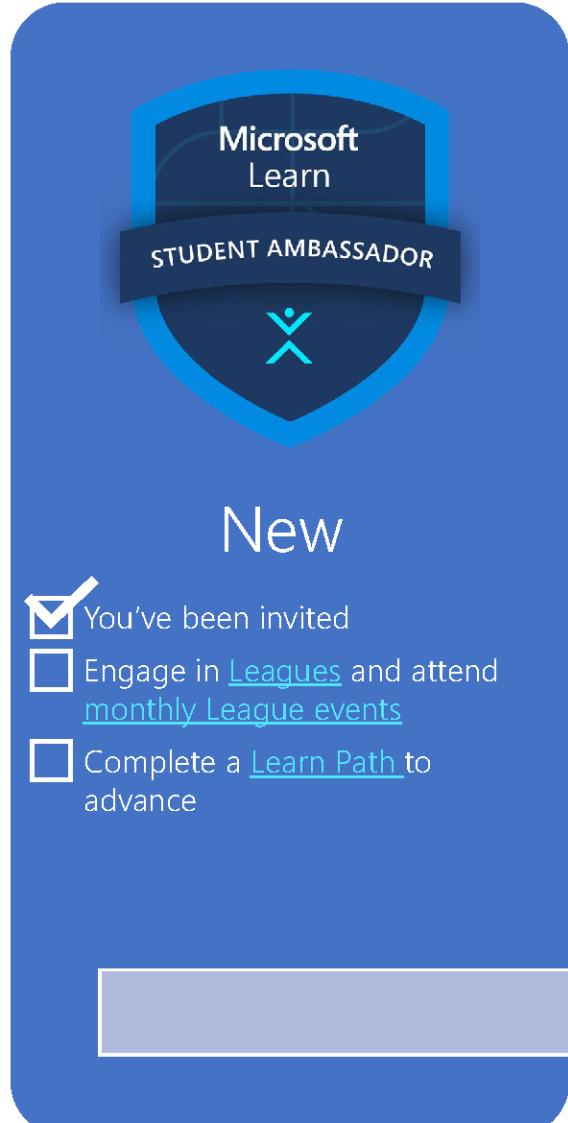

Procedure

1. Applications are open quarterly.
 - This quarter application were closed in August and results will be out in October.
2. Provide written and video introduction:
 - Video is strongly recommended for more clarity.
 - Videos can be 1 minute long each.
 - Express yourself in unique and enthusiastic tone.
 - Share your expertise and knowledge
 - How will you help your community learn?
 - Get your videos reviewed by Seniors/friends.
3. Link : studentambassadors.microsoft.com

Student Ambassador Roadmap

New to the program? Use this roadmap to get started on your journey.

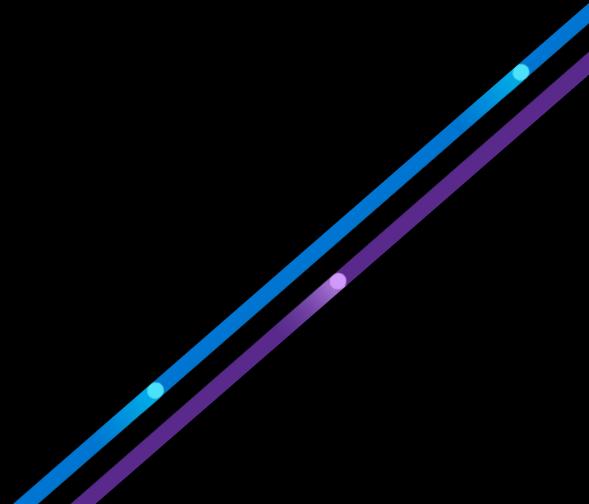

Benefits

- Access to vast community of enthusiastic and friendly students.
- Access to Microsoft 365, TechSmith Snagit and Camtasia screen capture and recording software
- Visual Studio Enterprise subscription and \$150 monthly Azure credits
- Exam certification vouchers [Free Certifications]
- LinkedIn Learning
- Free Name.com domain name
- Event support [Currently virtual support only]
- Engagement with Cloud Advocates and Microsoft MVPs
- Student Ambassador Milestone badges to highlight program accomplishments on your LinkedIn profile

How MLSA is different from other programs?

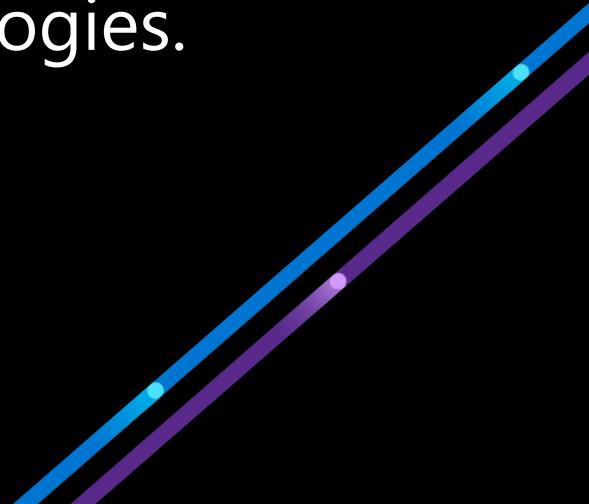

- Other companies are focussed on advertising.
- Almost no support directly from company employees.
- No interaction with other students/communities.
- Assume you have knowledge and expertise in programming field.
- No tracking of process or work.
- No direct opportunities.
- No starter friendly approach.
- Applications require pre-requisite.

HackClub

- Hack Club is a nonprofit network of coding clubs and makers around the world.
- It's focused on teenagers but college students are also allowed.
- Each member showing off their work builds momentum & motivation.
- Large community of students making projects and posting them and motivating others to learn new tools and technologies.
- Virtual support provided to run hackclub.

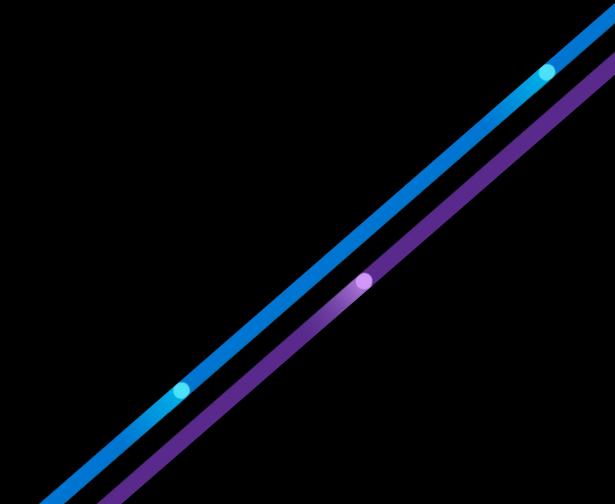

Procedure

- Currently I am lead and Ish is co-lead for DSEU Okhla II.
- Join slack – hackclub.slack.com
 - Start clippy [Bot] and complete full tutorial.
 - Reach out to me @AnshumanFauzdar.
 - I will add you to private channel.
- To keep track of our work we are provided leaderboard:
 - DSEU.hackclub.com redirects to leaderboard.
 - Everything will be posted here
 - including events, meets, hackathons, projects etc.

[**hackclub.slack.com**](https://hackclub.slack.com)

[**DSEU.hackclub.com**](https://DSEU.hackclub.com)

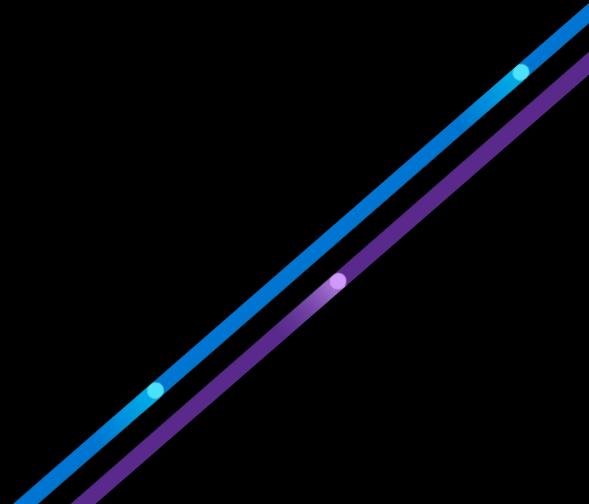

Benefits

- Vast number of students working on projects and learning in the process.
- Weekly events!
- Virtual Support:
 - Stickers
 - Repl.it
 - Postman
 - Figma Pro
 - Zoom Pro

“Failure is success if we learn from it ”

Malcolm Forbes

Google Developer Student Clubs

- Google Developer Student Clubs are university based community groups for students interested in Google developer technologies. Students from all undergraduate or graduate programs with an interest in growing as a developer are welcome.
- By joining a GDSC, students grow their knowledge in a peer-to-peer learning environment and build solutions for local businesses and their community.

Procedure

- Currently there is no GDSC Lead in our college.
- Lead applications to start club are open once a year.
- I got rejected first time in written application.
- Write precisely and avoid typing mistakes.
- What is your motivation to run GDSC at your college?
- What is your experience in leading a project or a team?
- What technology you find most interesting? What is your experience with mentioned technology?
- Personalised video explaining your interest.
- Write all answers precisely and shoot videos with clear audio and get both of them reviewed from seniors/friends.
- Apply Here - dsc.advocu.com

Interview Round

- Be prepared in advance and select date of interview ASAP.
- Interviewer interacts in personalised way.
- Be precise and answer questions in personalised tone.
- Be ready with your project, profile, publications links.
- Mention your previous work/expertise and
MENTION YOUR PREVIOUS VOLUNTEERING/LEADER EXPERIENCE
 - They will be assuming that you have good experience in leading projects/clubs and will ask for proofs of technical clubs, previous events etc.
- Question back interviewer if there is any doubt.
- If possible make a script and get it reviewed from seniors/friends.

Benefits

- Access to biggest resources and products from google.
- Leads will get awesome swags and travelling opportunities.
- Centralised project making and learning platform.
- Collaborate with other communities to host events, seminars, hackathons etc.
- Professional growth.
- Network growth.
- Community learning.

GitHub Campus Expert

- Campus Experts are student leaders that strive to build diverse and inclusive spaces to learn skills, share their experiences, and build projects together.
- They can be found across the globe leading in-person and online conferences, meetups, and hackathons, and maintaining open source projects.
- GitHub Campus Experts enrich the technology communities on their campuses.

Procedure

- Currently there is no campus expert in our college and I got rejected 4 times.
- Applications are open twice a year – February and August.
- Apply for GitHub student developer pack ASAP.
- Selection procedure is in two rounds.
- First round is written sample.
- Provide personalised answers.
- If selected you will have to submit video expressing yourself.
- PS : They will assume you have expertise in programming field and also strong foundation of leadership.
- They want best students who can educate other technical communities with latest tools and technologies provided from GitHub
- Link : apply.githubcampus.expert

Benefits

- Training and support from GitHub.
- Public speaking, technical writing, community leadership, and software development.
- Build a strong technical community, teach valuable skills, create new opportunities for your student community, and position your institution within a global community of student leaders.
- Access GitHub conferences and speaking opportunities.
- Receive exclusive swag and support from GitHub for your events.
- Interact and collaborate with student community leaders beyond your campus.

MLH Fellowship

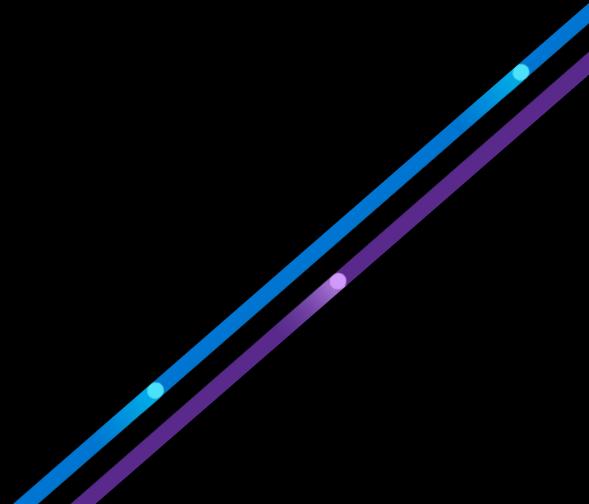

- The MLH Fellowship is a remote internship alternative for aspiring technologists. Spend 12 weeks building your skills by collaborating on real-world projects.
- Learn by doing, not by watching. Paired with fun, educational curriculum with real-world practical experience. It's collaborative, remote, & happens under the guidance of expert mentors.
- Contribute to projects that people depend on, not a side project that never sees the light of day.
- MLH offer fellows an educational stipend to help offset expenses while they participate in the program

Procedure

- 4 Options
 - MLH Fellowship Prep Program [3 Week]
 - Open Source Track
 - Software Engineering Track
 - Production Engineering Track
- Follow form instructions and provide good example of your code.
- Link : fellowship.mlh.io

Benefits

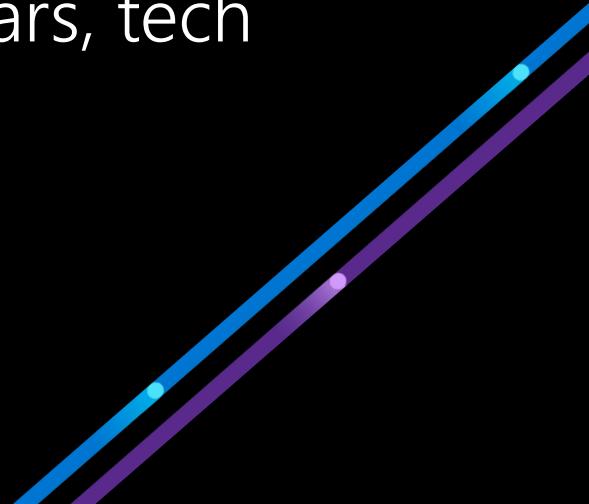

- Stipend for internship period.
- Access to large number of tools and technologies.
- Strong community support.
- Cool Swags.
- Practical projects and live production work.
- Job opportunities from big companies.

AngelHack Student Ambassadors

- AngelHack is a global hackathon organization.
- AngelHack primarily organizes hackathons, but has recently expanded into innovation consulting, virtual hackathons, acceleration programs and incubation.
- Participate and organize numerous Hackathons, webinars, tech meetups, events, all with the support of AngelHack.

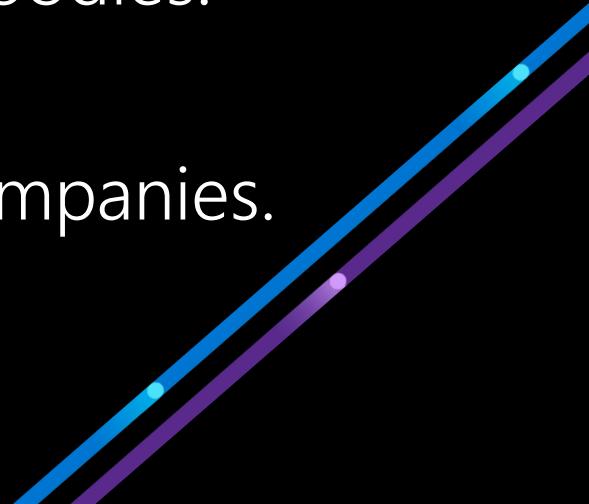

Procedure

- 3 Ways to get on-boarded:
 - Apply for General Ambassador
 - Apply for Student Ambassador
 - Apply for Core Team Member
- Apply with the link below
- Link : angelhack.com/student-ambassador-program/

Benefits

- Building tech and start-up communities.
- **Earn a Commission:** Assist in selling Sponsorships and earn commissions.
- Organize and run amazing Hackathons.
- Ambassador Retreat: Attend our annual invite-only retreat to workshop, connect, and receive some much needed R&R.
- Be eligible for AngelHack's shirts, sponsor swag, and goodies.
- Practical projects and live production work.
- Job/internship drive opportunities from largest tech companies.

DE Shaw Ascend Fellowship

- The DESIS Fellowship is a 3 days long event.
- Candidates will get learning, coaching, and mentoring from top minds in the software engineering, finance, tech & HR domain.
- Candidate will get opportunities to work on projects related to tech courses, under the guidance of top mentors from DESIS.
- The program is open for women only candidate, in their 2nd/3rd year of a full-time 4-year engineering course.
- Candidate should have strong academic record, demonstrated history of achievement, and keen interest in exploring the intersection of technology and finance.
- The cohorts for 2nd/3rd year students, will have 40 candidates each.

Procedure

- Candidates must submit an online application that includes the following:
 - Paper/Video Resume (including GPA, course and achievements).
 - A self-nomination written application (300 words or less).
 - Online test covering aptitude and basic programming questions.
 - Interview for Final selection.
- Follow link below to apply.
- Link : fellowships.deshaw.com

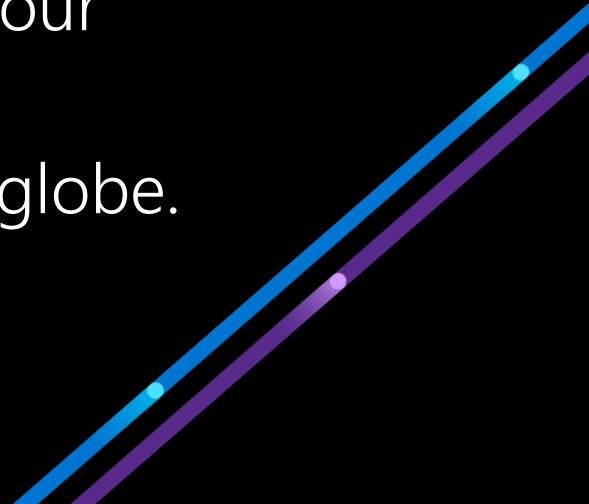

Benefits

- Cash Prize [INR 10,000 to INR 50,000]
- Candidate will get direct interaction with DESIS leadership and opportunities to learn from their experience to strengthened readiness for the interview processes conducted by top technology companies.
- Candidate will get first-hand industry exposure, practical projects and live production work.
- Offered instruction in areas such as DSA, problem solving, and System Designs, and other core CS topics.

#IamRemarkable Facilitator

- Join the #IamRemarkable community and celebrate your achievements.
- #IamRemarkable is a Google initiative empowering women and other underrepresented groups to celebrate their achievements in the workplace and beyond.
- One of the big hurdles when tackling the leadership gap is practicing self-promotion or expressing achievements in an environment.
- The benefits of self-promotion are vast - including taking control of how you're perceived by others, and making them understand your contribution.
- These workshops are free and for all. Join folks around the globe.

Procedure

- Simple Steps:
 - Attend a 60-90 minute workshop.
 - Attend the Facilitate the Facilitators Workshop by Google.
 - Host your first session.
 - Continue hosting and co-hosting workshops.
- Follow form instructions and provide good example of your code.
- Link : iamremarkable.withgoogle.com/about-facilitators

Benefits

- Connect with amazing minds all around the world.
- This program is not limited to techies. It is for all.
- Become part of Google's self-promoting community.
- Learn Personal-Branding and Public Speaking *internationally*.
- Get cool #IamRemarkable swags.

“ *Bragging is not bad if it is supported with Facts* ”

OnePlus Student Ambassador

- OnePlus student ambassador is a campus program that aims to form a fraternity of individuals trying to make a difference in tech world and have fun.
- You should join if you are:
 1. Curious about making a positive impact through innovative technology.
 2. Excited to join the ranks of one of the most sought-after fraternities.
 3. Obsessed with that OnePlus life.

The current phase for this program is 9 months.

Procedure

Fill form on OnePlus Campus Application page.

Link: www.oneplus.in/campus-application

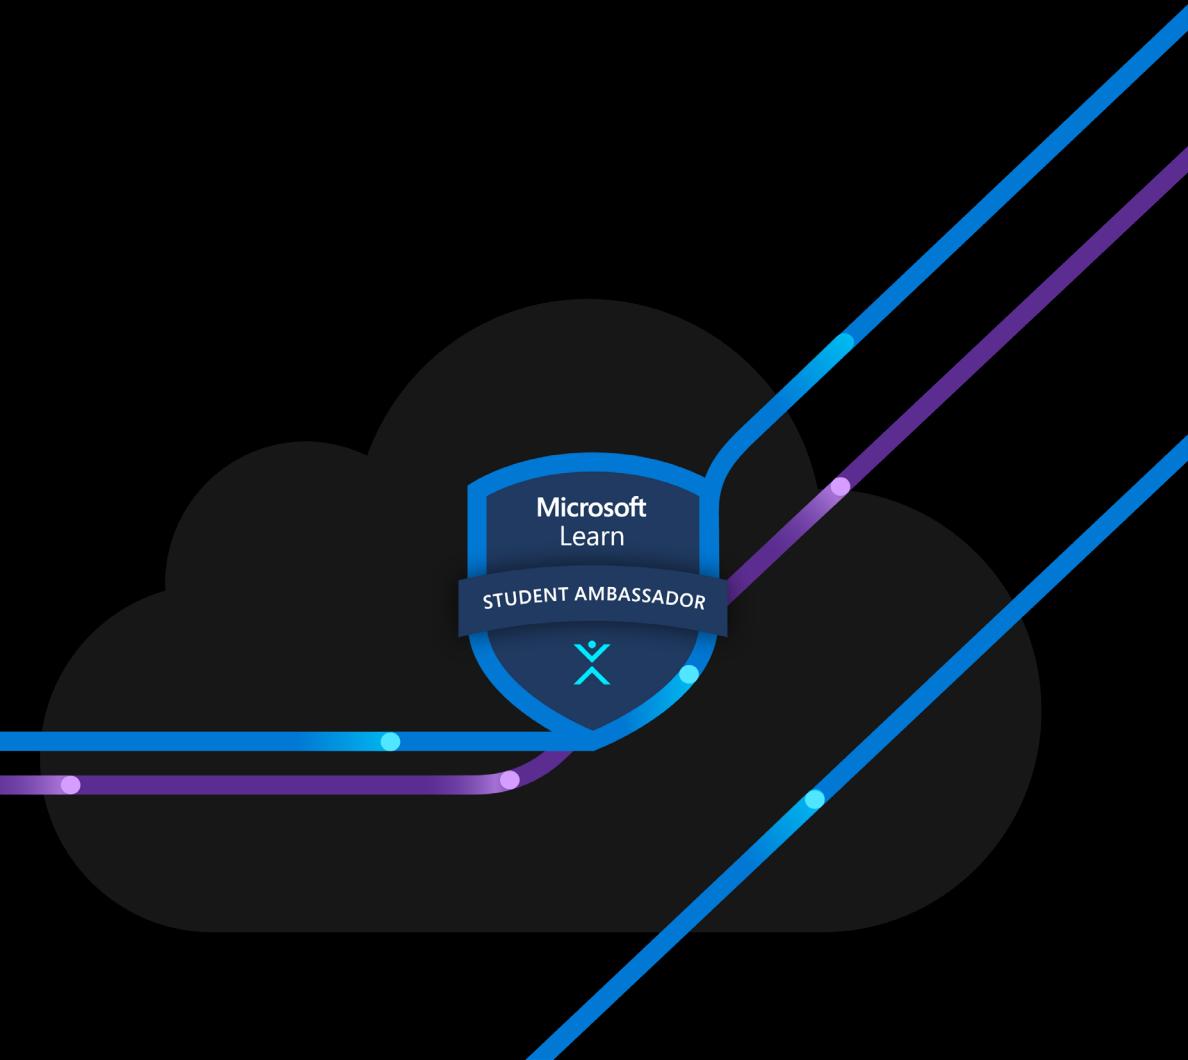

Benefits

- Campus Marketing Experience
- Work on live marketing projects for One Plus branding.
- OnePlus will provide adequate resources and guidance for successful execution of planned marketing activities.
- Develop strategic, communication, leadership skills and get rewarded for it. You'll get incentives like a monthly stipend exclusive merchandise.
- Represent the voice of the student tech community.
- Initiate research on tech talent across student groups.
